Headquarters for COATS

Easily Proven by Our Stock of New Models, Priced Notably Low

—"over the top" of the enveloping collars on new coats can be glimpsed the saucy nose, the bright eyes, and perhaps the red lips of the charming wearer, but the chin and throat of "My Lady" are hidden in the "trenches" of the collar's voluminous folds. That is the cold weather dress parade. When the sun shines warm, down comes the collar and makes a pretty revers front with broad cape shaped collar.

—New Models have been coming in by relays, and everything desirable in the way of a coat from styles for utility wear up to elaborate models for semi-dress wear will be found in our coat stocks.

—All the new and popular materials find representation here.

—Fur trimmings, plush trimmings, and self-trimmings.

—Everything in the season's color list in the assortments at these prices.

Also the wanted sizes, half sizes and extra sizes. Also 16 and 18 year sizes.
